

## Data Sheet

---

In 2015 the internet was accessed by 78% of UK adults on a daily basis compared to 35% in 2006. Almost all adults access the internet on the go as part of their digital lifestyle, this includes an outstanding 96% of adults aged 16-24.

With 76% of adults now buying online it is more crucial than ever to offer this service. Being able to sign up for memberships online will provide a quick and convenient way of signing up to your services, subsequently attracting members and increasing revenue. By having members join online it will also free up staff members time to invest in other activities.

### Product Information

Now you can extend the benefits of your eBookings software with the new Ejoin module. E-join enables new customers to join your membership schemes and pay over the web 24/7.

This solution automates key membership processes. It's very easy and convenient for you minimizing your costs and providing a 24 hour service. Functionality includes flexible payment methods, induction programme booking, complete PARQ, email confirmation and self-update for customer details. The customers' bank account details and post code are also validated during the registration process.
